

# A HERO FOR PEACE

Awarded to  
**Bradley Manning**

When the violence of war kills the innocent, our shared humanity cries out against the brutality. When the deceit of war attacks truth, our shared hope for justice compels some to testify and all to listen.

We count as heroes of peace, those willing to sacrifice themselves to save the innocent, those willing to suffer from lies to reveal the truth, those willing to be condemned by criminals for disobeying them, and those willing to be persecuted to stop the brutality. These are the deeds of Bradley Manning.
